21st March, 2024

Dear Parents/Carers,

Re: Science Day 2024

I am once again delighted to let you know that we are planning another off-timetable Science Day on **Friday 24th May 2024**. During the day, the children will take part in a wide range of activities related to science and technology, having lots of fun while they learn new things and gain new experiences.

Each year the success of Science Day relies on the generosity and kindness of many volunteers who give up their time to share some of their own expertise or to assist with a class as they go through the day. The children have benefited so much from the diverse range of people who have come in on Science Days past – it truly is an event that could not be run without the dedication and support of the parents and friends of the school.

As a school we are developing our work to expose the children to a wide range of careers. We hope that the children will hear and learn from a variety of adults who can share something of their professional life. We benefit so much from parents who are practicing scientists visiting on science day but you do not have to be a scientist to run an activity! We have also been privileged to welcome parents and friends of the school with medical, archaeological or technological expertise and if you are keen to help out but are not sure in what capacity you can be useful, please get in touch!

If you are able to help us with science day this year, please let me know either by speaking to me, sending me an email or completing [this online form](#). We will loosely theme the day around the concept of 'Time', but please don't feel unduly creatively constrained by this! Please do pass on this request to anyone you know who may be interested in helping us out.

I look forward to hearing from you and beginning to timetable the day!

Regards,

Peter Edwards

Redwood Class Teacher and science Co-ordinator

Headteacher: Mrs Beci McCaughran
