9th May, 2024

Dear Parent and Carers,

We are excited to announce, that we have several enriching activities planned for the Reception and Key Stage 1 children during the summer term. These include a visit from Little City, WonderDome and a VR workshop. These activities are carefully designed to complement and enhance our curriculum, offering children experiences that deepen their understanding of various subjects and foster their curiosity.

Whilst we always try to keep expenses to a minimum, we rely on the voluntary termly contributions from families to cover the cost of these enriching activities. If you have not yet paid your spring term contribution, we would be very grateful if you could log on to MCAs and do this as soon as possible because sadly, without sufficient contributions, these events will not be able to take place. If you have any problems or questions at all, please do not hesitate to contact the office team who will be able to help.

Here is some more information about what we have planned this term:

Little City:

A mobile role play City which uses bespoke backdrops and specially selected, high-quality toys and equipment so the children can fully immerse themselves in their own world.

WonderDome:

This is an immersive mobile planetarium show. Stepping into the WonderDome mobile planetarium, the children will be transported on a cosmic journey, a thrilling adventure exploring the wonders of the Universe.

VR Space Workshop:

A virtual reality workshop transports you to places you cannot easily visit. The whole class will blast off into space, piloting their research vessels around planets and moons, learning about the solar system.

Kind Regards,
EYFS and KS1 Team

Headteacher: Mrs Beci McCaughran
