24 September 2024

Dear Parents/Carers

It gives me great pleasure to invite both you and your children to Bottisham Village College's Open Evening on Thursday 3 October 2024.

Starting at 5.30pm, there will be many activities for year 6 children and parents to enjoy:

- A talk from Jenny Rankine, Principal at Bottisham Village College, as she explains how a growing college remains committed to its core values: a positive educational experience for all students. There will be two presentations: 6.00pm and 7.00pm
- Live music and sport, demonstrating the college's ability to include all students into these activities as well as developing talent and excellence in these areas.
- Opportunities for students to participate in many activities: science experiments, basketball, cooking and more.
- Opportunities to see our students in action in all areas of the curriculum and join-in, giving year 6 students a flavour of what life is like at the college, including the teaching styles.
- An understanding of how the college develops the whole student, supporting their wellbeing and happiness through a relationship-driven approach to education.
- An opportunity to meet our SENco team in the learning support hub during the evening.
- Tasters of food from the school canteen and an opportunity for refreshments and to meet other new parents.
- Trips, residentials, and Duke of Edinburgh displays in the dining room.

Current students will be on-hand to offer parents and year 6 students a guided tour of the activities and to field any questions you may have about the college. Additionally, teaching staff and members of the college leadership team will be available for any informal questions or individual concerns you may have.

We are only too aware of the importance of finding the right secondary school for your children; it is a crucial decision. To that, we hope to show you how students reach their potential with us at the college, enjoy their time with us here and forge memories of being part of the Bottisham family which will remain for the rest of their lives.
